Residency & Guardianship

For a student to enroll in Nassau County Schools, the student's residence must be in Nassau County. Administrative Rule 5.01 defines a student's residence as the home of the student's parents or such other person with whom the student resides pursuant to court order or the residence where the student is placed by a state or federal agency which has jurisdiction over the student. If a minor student's parents or legal guardians live in separate residences while sharing physical custody under the terms of a court order or otherwise, the student may attend the school zoned for either residence with appropriate residency documentation.

The location of the student's residence determines the student's school zone and the school to which the student will be assigned unless the student enrolls in another school in accordance with the district's School Choice transfer policy.

Proof Of Residency

All documents must be current, valid, and include the residential address used for enrollment. Follow the requirements below that best describes your residency situation. Bills must be in the last 30 days.

Residency Fraud

Parent(s)/Guardian(s) are committing residency fraud if they submit an address during the enrollment process that is not their true residence.

If there is reasonable suspicion that the student is not residing at the claimed address, the following procedures may be implemented at the discretion of the Superintendent or designee.

- A letter may be sent to parent(s) who have conflicting address information requesting that the parent verify and update enrollment information. This may be followed by a phone conversation or home visit.
- The school staff may examine the Property Appraiser's website to determine the parent's homestead (permanent residence) location. The homestead address of the parent will be used as a factor to determine the student's zoned school. A conflicting address indicates that further investigation is required.

If it is determined that the student is attending a school outside of their zone, the student shall be withdrawn by the school and must be registered and enrolled in the appropriate zoned school.

The Superintendent or designee reserves the right to make an independent investigation and to make the final determination as to the residence of a student.

Change Of Residence

If the student's permanent residence changes, notification and updated documentation must be provided to the school within 10 school days.

Guardianship

Pursuant to Administrative Rule 5.01(II), when a student resides with a person who is not the student's parent seeks to enroll in school, the student shall present a court order appointing the person with whom they reside as either their legal guardian or legal custodian or shall present other proper documentation from a state or federal agency placing the child with the person with whom they reside.

Homeless

Homeless children shall have equal access to free public education in Nassau County schools. They will be enrolled in accordance with Administrative Rule 5.13, based on the McKinney-Vento Act.

Dependence Or Delinquency

Students who have been adjudicated to be dependent or delinquent pursuant to Chapter 39, Florida Statutes, shall be assigned by the Superintendent to the school best meeting the special needs of the student in consultation with the Department of Children and Family Services or such other agency or person having responsibility for the student's welfare.

STUDENT RECORDS

Student information is protected by federal and state laws as well as policies of the Nassau County School Board. These regulations for determining who can or cannot obtain student information were enacted to protect the privacy rights of students and parents.

What rights do students and parents have?

According to Florida Statute 1002.22, students and their parents have the right to:

- Access their education records maintained by a school, including the right to inspect and review those records.
- Waive their right to access to their education records in certain circumstances.
- Challenge the information contained in the education records in order to ensure the records are not inaccurate, misleading, or otherwise a violation of privacy or other rights.
- Privacy with respect to such records and reports.
- Annual notice of their rights with respect to education records.

What information is included in a student's record?

Florida Statute 1003.25 requires all principals to maintain permanent cumulative records for all students enrolled in a public school. The state law also determines what should be in the record and its format. A student's education records include personally identifiable data (social security number, address, birth date, sex, and race), registration forms and information, birth certificate, academic records, standardized test scores, legal documents (custody, guardianship, name change, etc.), ESE documents, ELL documents, 504 documents, RtI documents, attendance records, and health data. The record also may contain family background information, extracurricular activities, verified reports of serious or recurrent behavior patterns, honors and awards, and a list of schools attended.

How can parents review their child's records?

Parents can request to review student records. Schools must comply with that request within a 45-day period. If a parent feels that the record contains information that is inaccurate, misleading, or in violation of the student's rights to privacy, the parent contacts the principal of the responsible school. Requests for a correction, deletion, or expunging of the record must be made to the appropriate principal in writing and must clearly identify the part of the record they want changed and why.

Who, other than parents, can access student records?

Parents have the legal right to any and all information in a student's permanent cumulative record. If parents are divorced or separated, both parents have the right to student records unless a judicial order to the contrary is on file in the student's permanent cumulative record. Eligible students take on all the rights of a parent. An eligible student is one who is 18-years old or who is attending a postsecondary educational institution. Parents of eligible students still have access to the student's records as long as the student continues to be listed as a dependent on the parent's income tax return. A stepparent may have access to a child's record only with the written consent of the natural parent, legal guardian, or eligible student. School staff who need the information to work effectively with the student may also have access to it.

The law generally prohibits people from being able to inspect or review a student's education record without prior permission of the parent. Written consent is not required for disclosure of personally identifiable information for the following people: Principal and Assistant Principal, School Counselor(s), homeroom teacher, teacher of one or more subjects to the student, Dean of Students, NCPHU nurse or aide (access only to health records, stored separately), Occupational Specialist, Educational Support Employee aide assigned to guidance, student's academic advisor, and Administrative Data Entry Operator. Those persons who must sign and date an individual student access record are the following: school social worker, school psychologist, coach (if not the student's teacher), media specialist, activity sponsor (if not the student's teacher), designated school representatives, ESE staffing specialist, district administrative staff, parent/guardian of the student, law enforcement official, CFS official, fiscal or compliance auditor, other official who, in conduct of mandated duties may have access, and a person authorized by parent/guardian or adult student.

Please note that directory information can be made available for broad categories of students.
