

2020 IS OVER BUT THE COVID-19 PANDEMIC IS NOT!

Back to School COVID-19 Quarantine Guide

What You Should Do If Your Student Was Exposed Outside Of School

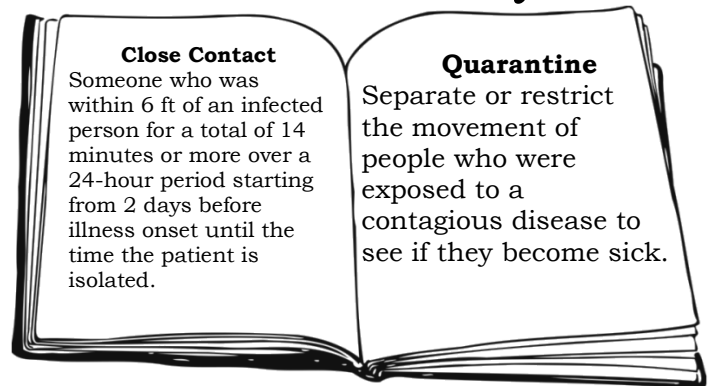

1. Call the Nassau County Health Department at (904) 875-6100
2. Provide the Following Information:
 - Possible Exposure Date
 - Name of the Individual that you suspect the student came in contact with**
 - Describe the type of exposure the student may have had
 - If the student is experiencing any symptoms.

**The Florida Department of Health in Nassau County complies with Florida laws regarding Privacy Rules for health information. This includes disclosing any components of an individual's case investigation.

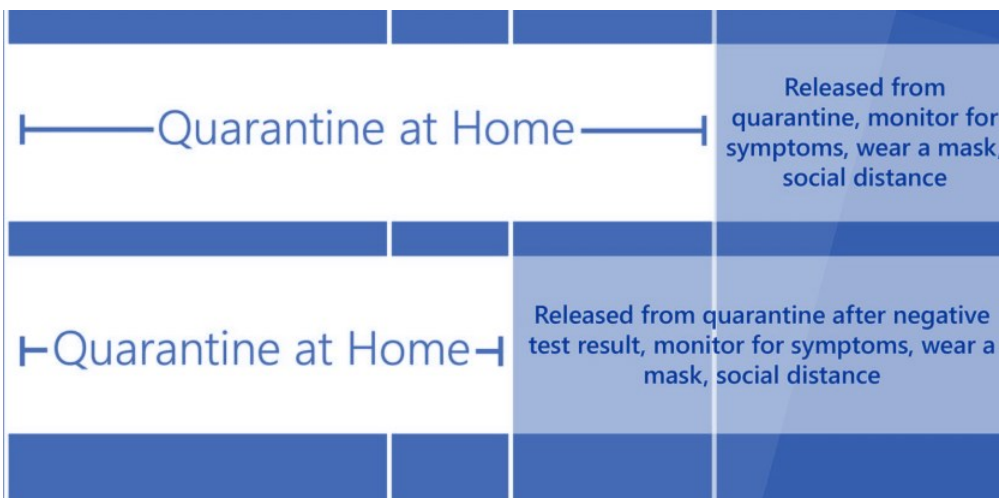

What You Should Do If Your Student Was Exposed At School

1. Begin the student's quarantine as soon as you are notified by the school
2. Anticipate a call from the Nassau County Health Department to discuss further quarantine requirements.
