Guidance News

Our theme for January at Emma Love Hardee Elementary will be perseverance. Perseverance means continuing to do something even if it is difficult, which is important for academic success, as well as lifelong success.

You can help your child by setting goals with your child, encouraging them to keep striving, even when things are hard, and modeling perseverance in your own life.

If your child struggles with perseverance, try breaking larger tasks into smaller, more manageable ones, ask them how you can help but resist the urge to "rescue" or give answers, and take a break and come back to it later.

ELH Mission Statement:

Establishing a positive collaborative culture that promotes and fosters teaching and learning among the community of learners.
