

Digital Media

Angela Mosley, HMSHS

The Digital Media Technology pathway prepares students for a career in digital media including photography, video production, motion graphics, mobile journalism, and web development.

Digital Media/Multimedia Foundations 1

8201210

The first class in your Digital Media Journey. The course provides competencies in presentation production issues, basic computer knowledge, illustration software, digital still photography, and photo editing software. Certification opportunities in Adobe Photoshop, Illustrator and InDesign.

Digital Media/Multimedia Foundations 2 and 3

8201220 and 8201230

The next two courses cover competencies in advanced design, color modes, fonts, and design layout software. Certification opportunities in Adobe PremierePro, After Effects, Dreamweaver and Animate.
