Buzzworthy Notes from the Principal

**School
Where
Achievement
Reaches
Maximum**

Hello parents and students. My name is Mr. Cubbal and I am so excited to be your new Principal. I hope you all had a wonderful summer! I want to welcome all of our parents and students back to Yulee Elementary School, as well as welcome our newcomers! We are excited to embark on the 2019-2020 school year. Our goal this year is for our Hornets to be a S.W.A.R.M. which can only be achieved with the involvement of every student, parent, teacher, staff member, and community partner that helps us build a successful and safe place for students to learn and grow. Go Hornets!

HORNET HOORAH

Our hive couldn't thrive without the help of some very special hornets. The following are things that have made HUGE impacts to the beautification of our campus this summer:

- On the first Saturday in August, Yulee Elementary School had multiple volunteers consisting of parents, students, staff members and their families, as well as Navy volunteers who helped weed flowerbeds, and clean up areas all throughout our campus in preparation of school starting.
- PTO spent their summer creating a beautiful rock garden with rocks that our students painted last year. They also initiated a new tradition where all 3rd grade students at the end of every school year will paint and add their personalized rocks to our garden. They have also added the signage on our fences: "Yulee Hornets" and "We Are Nassau."
- The hornet statue 'Big Stinger' was created and donated by local artist Bill Kinney. There will be a dedication ceremony coming soon.

Thanks to these amazing members of our school and community, our campus is looking better than ever. What an awesome group of Hornet Helpers we have! If you ever want to lend a helping hand, please sign up with our Yulee Elementary School PTO and fill out a county "Volunteer Application" to join a group of hornet helpers that appeals to you!
