FREE DISTRICT-WIDE ACCESS

24/7 On Demand Chat Tutoring

- ✓ Give every student in your district access to 24/7 chat tutoring whenever they need it.
- ✓ Highly qualified tutors are ready to help with whatever questions they have, whenever they have them.

The screenshot shows a Varsity Tutors chat window. On the left, a student asks for help with an algebra problem. A tutor responds with a quick note about translation and then provides a solution. On the right, the solution is displayed with handwritten-style annotations: red lines through the terms being moved, green plus signs for the terms being added, and green division signs for the final step. The final answer, $y = (24 + 3x) / 4$, is circled in green.

Paragraph

University application essay

by Mallory Newton

Dear Admissions Committee,

I am writing to express my sincere interest in joining your **university's community** as a prospective student. Enclosed is my application for admission accompanied by the required documentation.

From a young age, my passion for science has been a guiding force in shaping my academic journey and personal growth. As a curious and dedicated student I have consistently sought opportunities to delve deeper into this field, both inside and outside the classroom. Whether engaging in independent research projects, participating in relevant extracurricular activities, or attending workshops and conferences, my commitment to expanding my knowledge in science has been unwavering.

Academically, I have maintained a rigorous course load throughout high school, consistently challenging myself with advanced coursework and AP classes. I am dedicated to excellence and I am confident in my ability to thrive in the challenging academic environment at your **university**. Beyond grades, I believe that my enthusiasm for learning and my capacity for critical thinking set me apart as a candidate who would actively contribute to the your vibrant intellectual community.

In addition to my academic pursuits, I have actively sought out opportunities to make

How to Promote On-Demand Tutoring for Maximum Engagement

by Norberto Perez, Agent of Expanded Learning Programs
Rialto Unified School District, CA

Study Details

The incorporation of a virtual, chat-based tutoring service into our plans for an after-school tutoring program was a natural fit for our students and teachers. While I know many schools and districts struggle to see the usage of this tool they would like, we have found that our teachers and students love

its flexibility. And most of all, for students, they love the privacy it provides them when they are feeling uncertain. In a nutshell, the students' favorite aspect of on-demand tutoring is the opportunity to ask a question without having to feel shy or embarrassed to ask. Varsity Tutors for Schools' chat-based format allows them to have the privacy they need to feel safe enough to learn.
