NO SHOTS, NO SCHOOL, NO JOKE!

Parents should get their child's shots with their child's doctor if they have private insurance or Medicaid. For those without insurance shots are provided through the Florida Department of Health, Nassau County at no charge for children birth to 18 years of age through a Federal Vaccine for Children Program. Parents must bring their child's up-to-date shot record to help identify needed shots and prevent unnecessary shots for their child. We will also provide parents with a required Proof of Immunization Form 680 if needed. We must have an up-to-date shot record to provide a 680.
